SUBJECT INDEX

ORIGINAL ARTICLES AND NOTES, CASES, INSTRUMENTS

Note: Abstract Index follows Author Index

A

- Acids, polyethylene sulfonic, in experimental retinal detachment, 571
 Adhesives, in epikeratoprotheses, 38
 A-exotropia, 377
 Age, corneal radius and, 864
 Africans, glaucoma filtering operations in, 395
 AMBLYOPIA, crowding phenomenon in, 1
 dark adaptation in, 973
 ERG in, 1
 functional, 1
 in Maoris of New Zealand, 358
 occlusion in, 1
 pathophysiologic basis of, 1
 red-filter treatment in, 586
 spatial summation function in, 1
 treatment of, 1
 American Association for Automotive Medicine, 596
 Amniotic fluid, embolization of, ischemic retinopathy due to, 351
 Amphotericin B, in cryptococcosis, 745
 Aneurysms, microaneurysms, in diabetes mellitus, 21
 Angiography, fluorescein, cineangiography, 971
 in central serous retinopathy, 519
 in ischemic retinopathy, 351
 in serous detachment macula, 821
 of anterior segment, 842
 of the choriocapillaris, 653
 to study retinal vascular malformations, 501
 Angioma, racemose, fluorescein photography in, 501
 Aniridia, sporadic, Wilms' tumor and, 558
 Anophthalmos, bilateral, cosmetic treatment of, 580
 Anterior chamber, depth, corneal radius and, 864
 lens thickness and, 87
 flat, echthiophate iodide in, 392
 free-floating pigmented cyst in, 493
 shallow, causes of, in primary angle-closure glaucoma, 87
 Anterior segment, damage to, from laser, 100
 fluorescein angiography of, 842
 measuring diameter of, 769
 Antibiotics, in *Pseudomonas aeruginosa* keratitis, 257
 lincomycin, evaluation of, 963
 Antilymphocyte serum, 952
 effect on graft reaction, 137
 Antimetabolic analogues, against herpes simplex, 313
 Aphakia, monocular, stereopsis with spectacles in, 547
 Aqueous outflow channels, surgically produced, 451
 Autoradiography, to study DNA and RNA metabolism in retinoblastoma, 737

B

- Bacterial diseases, corticosteroids in, 873
 Barraquer-Zeiss film-microscope, 218
 Bascom Palmer Eye Institute residents day, 971
 Bethanidine, in thyroid-related upper eyelid retraction, 764
 Blepharophimosis, 153
 Blepharoptosis, 153
 artificial eye fitting and, 189
 in Parry-Romberg syndrome, 561
 minimal, correction of, 957
 Blindness, in Parry-Romberg syndrome, 561
 ischemic retinopathy causing, 351
 night, hereditary vitreodegeneration and, 553
 Blood clotting, unstable, Factor XIII deficiency and, 346
 Blood vessels, brachial/ophthalmic artery pressure ratio, 684
 ophthalmic artery pressure, ophthalmodynamometry and direct measurement of, 681
 BOOK REVIEWS:
 Alberth, B.: Surgical Treatment of Caustic Injuries of the Eye, 980
 Allen, James H. (ed.): May's Diseases of the Eye. Edition 24, 161

 Victoria, Virgilio and Fanjul, Ricardo: La Participación Oculo-Orbitaria en los Traumatismos Encefalo-Craneanos, 430

BOOK REVIEWS (continued)

Wessing, Achim and Meyer-Schwickerath, Gerd: Fluoreszenzangiographie der Retina. Lehrbuch und Atlas, 160

Bruch's membrane, effect argon laser on, 671
in congenital syphilis, 335
in cryosurgery, 477
in diabetes mellitus, 21

C

Camera, closed-circuit micro-television, 218
Carotid compression, direct measurement ophthalmic artery pressure after, 688

influence sinus reflex on results, 688

CATARACTS, after glass injury, 375

after polyethylene sulfonic acid, 571

extraction, Amritsar method, 230

enzymatic zonulysis in, 230

crisophake method, 230

eyelid sutures in, 594

flat anterior chamber after, echthiophate iodide in, 392

in glaucoma patients, 522

intracapsular, current methods, 230

phaco-emulsification, aspiration and, 464

galactitol diet fails to produce, in rats, 224

in diabetes mellitus, 21

in Maoris of New Zealand, 358

incision, bevelled, 968

closure of, 967

laser radiation causing, 100

surgery, monofilament nylon sutures in, 950

vitreous loss during, 971

Catecholamines, iris uptake of, in experimental Horner's syndrome, 705

Cerebrospinal fluid pressure, retinal venous pulsations and, 954

Children, lethal orbito-cerebral phycomycosis in, 698

mongoloid, congenital ectropion and megaloblepharon in, 252

of low birth weight, ophthalmic examination of, 134

Pseudomonas aeruginosa keratitis in, 257

Wilms' tumor and sporadic aniridia in, 558

trachoma in Saudi Arabian, 235

Chloroquine toxicity, ocular changes in swine due to, 399

Cholesteroid keratopathy, 370

Choriocapillaris, fluorescein angiography of, 653

in diabetes mellitus, 21

Chorioretinal damage, laser radiation causing, 100

CHOROID, circulation of, fluorescein angiography of, 653

effect argon laser on, 671

in congenital syphilis, 335

in diabetes mellitus, 21

in sclerotic, angiographic findings, 653

Choroideremia, angiographic findings, 653

Choroiditis, serpiginous, choroidal circulation in, 653

skin-test reactivity in, 732

Chromatography, in cholesterol keratopathy, 370

Ciliary body, in diabetes mellitus, 21

Cinematography, of microsurgical procedures, 218

Cockayne's syndrome, ocular manifestations of, 762

Color vision, in hereditary vitreoretinal degeneration, 553

Congenital anomalies, of anterior segment, glaucoma and, 972

in Maoris of New Zealand, 358

of lacrimal apparatus, 931

Conjunctiva, essential shrinkage of, epikeratoprosthesis in, 38

flap of, in closure cataract incision, 967

fungi from, 52

Conjunctivitis, chronic cicatricial, 526

in Maoris of New Zealand, 358

Conjunctivodacryocystorhinostomy, aerofederal complications of, 592

Contact lenses, corneal dellen after wearing, 970

tear film and, 56

CORNEA, degeneration, lattice, 973

dellen, after contact lens wear, 970

disease, in Maoris of New Zealand, 358

dystrophy, keratoplasty in familial, 46

CORNEA (continued)

epithelium, water movement through, 110

in Cockayne syndrome, 762

infections, Runyon Group IV mycobacteria causing, 130

lipid infiltration of, 370

model, to study optical properties corneal grafts, 724

preparation of, for epikeratoprosthesis, 38

radius of, in normal eyes, 864

in primary angle-closure glaucoma, 864

tear film and, 56

ulcers, fornix-based conjunctival flap in, 754

Corneal punch, 966

CORRESPONDENCE:

Applanation tonometer magnetism, 425

Artificial tears, 978

Corrections, 604, 978

Cosmetic scleral contact lenses and shells, 425

Diagnostic bone-free X-rays, 425

Malignant melanoma of lacrimal sac, 159

Multiple bilateral pterygia, 158

Nil novi sub sole, 275

Phenylephrine pack for flat anterior chamber, 603

Photoreceptor orientation following retinal detachment, 603

Training of medical ophthalmic assistants, 975

Corticosteroids, cryptococcosis and, 745

effect on xenograft reaction, 896

in central stromal keratitis, 873

in mycobacteria infections cornea, 130

in 100 keratoplasties, 46

in prolonged herpetic keratitis, 313

in pterygium, 759

Pseudomonas aeruginosa keratitis and, 257

Cryoprobe, illuminated, for accurate localization, 769

Cryosurgery, mechanism adhesion of, 477

Cryptococcosis (torulosis) retinitis, 745

Cyclodialysis, lens extraction and, in glaucoma, 522

Cysts, free-floating pigmented in anterior chamber, 493

D

Dark adaptation, amblyopia and, 1, 973

Diabetes, in Maoris of New Zealand, 358

mellitus, asteroid hyalosis and, 406

ocular pathology of, 21

Diabetic retinopathy, 21

Diplopia, in circadian heterotropia, 565

Divergence, dissociated vertical, 377

DNA, metabolism in retinoblastoma, 737

Drugs, response to in nystagmus with oscillopsia, 139

E

Echthiophate iodide, in flat anterior chamber, 392

in glaucoma, 392

Ectropion, congenital, megaloblepharon and, 252

of lower eyelid, artificial eye fitting and, 189

EDITORIALS:

Effective vaccines for rubella, 424

Fluorescein in ophthalmology, 272

Glaucoma, 599

Pan-American lectureship, 974

Style, 777

The core of the problem, 598

The 1968 Academy, 156

University Professors 1969, 422

Electromyography, in Parry-Romberg syndrome, 561

ELECTRON MICROSCOPY, to study anterior chamber cyst, 493

to study chloroquine toxicity, 399

to study cryosurgical adhesion, 477

to study experimental retinal detachment, 117

Electroretinography, after intravitreal polyethylene sulfonic acid, 571

in amblyopia, 1

in ischemic retinopathy, 351

to study chloroquine toxicity, 399

Endophthalmitis/phacoanaphylactia, lens-induced uveitis and, 144

Enophthalmos, in Parry-Romberg syndrome, 561

Entropion, artificial eye fitting in, 189

Enucleation, Iowa implant after, 10-year evaluation, 171

Environment, influence on trachoma in Saudi Arabia, 235

- Enzymatic zonulysis: See Zonulysis
 Epicanthus inversus, 153
 Epikeratoprosthesis, 38
 Epiphora, diagnosis, causes of, 751
 Epithelioma, basal cell, of eyelid, 413
 Erythema multiforme, monocular involvement in, 369
 Erythrocyte sedimentation rate, 971
 Examinations, in-training for ophthalmology residents, 70
 Exophthalmos, orbital venography in, 512
 Exotropia, in Cockayne syndrome, 762
 simulated, artificial eye fitting and, 189
 Exudates, in diabetes mellitus, 21
 Eyedrops, methylcellulose, in neurotrophic keratitis, 150
 EYELIDS, basal cell epithelioma of, 413
 congenital ectropion of all four, 252
 contours, artificial eye fitting and, 189
 diseases, in Maoris of New Zealand, 358
 grafts, autogenous free full-thickness, 941
 lower, sagging, in artificial eye fitting, 189
 margins of, fungi from, 52
 plastic surgery of, 941
 ptosis: See Blepharoptosis
 sign, in aberrant regeneration 3rd nerve, 696
 sutures, in intraocular surgery, 594
 upper, retraction of, bethanidine in, 764
 EYES, artificial, modified impression method of fitting, 189
 axial length of, corneal radius and, 864
 diseases, in Maoris of New Zealand, 358
 hazards to, of transscleral laser radiation, 100
 voluntary propulsion of, 583
- F**
- Face, peppering of in blast injuries, 64
 Factor XIII deficiency, 346
 Fascia lata, nature of and fate after implantation, 900
 Fever, Rocky Mountain spotted, fundus changes in, 263
 Fibrosarcoma, of orbit, 244
 Fistula, congenital, of lacrimal sac, 931
 frontal-lacrimal, 591
 Fixation, bifoveal, four-diopter prism test in, 935
 eccentric, red-filter treatment of, 586
 Fluids, amniotic, ischemic retinopathy due to embolization of, 351
 Fluorescein, angiography: See Angiography
 Foreign bodies, removal after blast injuries, 64
 Fornix, lower, artificial eye fitting and shallow, 189
 Fovea, in amblyopia, 1
 Fracture, of medial orbital wall, radiographic diagnosis, 772
 Fundus, changes, in Rocky Mountain spotted fever, 263
 degeneration, unilateral high myopia and, 756
 effect argon laser on rabbit, 666
 lesions, radiation causing, 972
 Fungus, from normal outer eye, 52
 infections, corticosteroids in, 873
 lethal orbitocerebral phycomyces, 698
 Fusion frequency, critical, amblyopia and, 1
- G**
- Galactitol diet, cataract production failed with, 224
 Gaze, conjugate, viewer for, 268
 Glare sensitivity, optical properties corneal grafts and, 724
 GLAUCOMA, angle-closure, axial length eye in, 87
 causes shallow anterior chamber in, 87
 corneal radius in, 864
 postcongestive triad of, 540
 anterior segment anomalies and, 972
 cataract and, cyclodialysis-lens extraction in, 522
 echothiophate iodide in, 392
 experimental in rabbit, negative report, 767
 microsurgery of, 857
 ocular tension and, in Jamaica, 93
 operations, 857
 aqueous outflow channels and, 451
 filtering, in Africans, 395
 fistulizing, aqueous outflow after, 451
 secondary, postcongestive triad in, 540
- GLAUCOMA (continued)
 secondary (continued)
 to keratoplasty in interstitial keratitis, 907
 simple, pressure-cup tonography in, 713
 Glaucomflecken, in postcongestive angle-closure glaucoma, 540
 Goniolens, fiber optic, 946
 Gonioscopy, ointment for, 419
- H**
- Hallermann-Streiff syndrome, 151
 Hemangioblastoma, of retina, 501
 Hemangiomas, microhemangiomas, at pupillary border, 846
 Hemiatrophy, progressive facial, 561
 Hemorrhage, familial diathesis, Factor XIII deficiency and, 346
 laser radiation causing, 100
 Heredity, in Cockayne syndrome, 762
 unilateral high myopia and fundus degeneration, 756
 vitreoretinal degeneration, night blindness, 553
 Herpes simplex, antimetabolic analogues against, 313
 corticosteroids in, 873
 keratitis, treatment of, 313
 Herpes zoster ophthalmicus, 972
 corticosteroids in, 873
 Heterotropia, circadian, 565
 Horner syndrome, iris uptake catecholamines in experimental, 705
 Hyalosis, asteroid, diabetes mellitus and, 406
 plasma lipid levels in, 406
 Hydrostatic pressure, effect on corneal epithelium, 110
 Hypertropia, simulated, artificial eye fitting and, 189
 Hypotropia, simulated, artificial eye fitting and, 189
- I**
- IDU, in herpes simplex keratitis, 313
 Immunosuppressive agents, antilymphocytic serum as, 952
 effect on graft reaction, 137
 methotrexate as, in uveitis, 383
 Implants, fascia lata, 900
 Iowa, after enucleation, 10-year evaluation, 171
 Injuries, 775
 blast, 64
 explosion, 64
 glass, intralenticular, 375
 in Marfan syndrome, staphyloma and, 329
 INSTRUMENTS, Barraquer-Zeiss film-microscope, 218
 conjugate gaze viewer, 268
 corneal punch, 966
 for phaco-emulsification, 464
 goniolens, fiber optic, 946
 illuminated cryoprobe, 769
 PDx, diagnosis culturing device, 728
 Iridectomy, filtering, in Africans, 395
 Iridencleisis, in Africans, 395
 Iris, atrophy, segmental in postcongestive glaucoma, 540
 in diabetes mellitus, 21
 pigment epithelium of, cyst derived from, 493
 uptake catecholamines, 705
 Iritis, due to thelaziasis, 773
- J**
- Jackson Memorial Lecture, 451
 Jamaica, glaucoma and ocular tension in, 93
- K**
- KERATITIS, anonymous mycobacterium causing, 130
 central stromal, corticosteroids in, 873
 dendritic, therapeutic agents for, 313
 exposure, Factor XIII deficiency and, 346
 herpes simplex, corticosteroids in, 873
 treatment of, 313
 interstitial, 973
 penetrating keratoplasty in, 907
 neuroparalytic, epikeratoprosthesis in, 38
 neurotrophic, treatment of, 150
 Pseudomonas aeruginosa, 257
 sicca, epikeratoprosthesis in, 38
 stromal, due to herpes simplex, 313
 Keratoconjunctivitis, acute herpetic, 313

- Keratoconus, keratoplasty in, 46
 Keratopathy, band, after polyethylene sulfonic acid, 571
 bullous, epikeratoprosthesis in, 38
 cholesterol, 370
 Keratoplasty, corticosteroids in, 100, 46
 grafts, from living eyes for lamellar, 917
 optical properties different-sized, 724
 reaction, antilymphocyte serum in, 137
 penetrating, in interstitial keratitis, 907
 Kidney disease, retinal detachment in, 249

L

- Lacrimal apparatus, canaliculi, stenosis of, 153
 repair, 592
 excretory system, evaluation of, 751
 fistula of, 591
 sac, congenital fistula of, 931
 secretory system, evaluation of, 751
 Laser, argon, coagulation of retina, 666
 ocular effects produced by, 671
 radiation, ocular hazards of transscleral, 100
 LENS, capsule, rupture of, lens-induced uveitis and, 144
 glass injury of, 375
 in diabetes mellitus, 21
 position of, in angle-closure glaucoma, 87
 thickness, corneal radius and, 864
 ultrasound to measure, 87
 Lincomycin, intraocular penetration of, 963
 Lipids, plasma levels of, in asteroid hyalitis, 406
 Low-vision aids, 542

M

- Macula, degeneration, photocoagulation in disciform, 920
 serous detachment of, congenital pit nervehead and, 821
 Mandibulo-oculo-facial dyscephalia, 151
 Maoris, of New Zealand, eye diseases in, 358
 Marfan syndrome, intercalary staphyloma in, 329
 Meetings, Conferences, Symposia:
 American Association for Automotive Medicine, 596
 Bascom Palmer Eye Institute residents day, 971
 Beth Israel Medical Center, 270
 Computers in Ophthalmology, 596
 Horacio Ferrer Eye Institute, 155
 New England Ophthalmological Society, 270, 775
 University of British Columbia, 775
 Megaloblepharon, in mongoloid, congenital ectropion and, 252
 Melanocytoma, ocular, 79
 Melanoma, choroidal circulation in malignant, 653
 Melkersson-Rosenthal syndrome, 971
 Metabolism, DNA and RNA, in retinoblastoma, 737
 Methotrexate, in uveitis, 383
 Mongolism, congenital ectropion and megaloblepharon in, 252
 Movements of eye, limitation of, in Parry-Romberg syndrome, 561
 Mucocoele, frontal sinus, 591
 Muscles, extraocular, in myasthenia gravis, 13
 oblique, overaction superior, 377
 tendon-sheath syndrome and, 960
 Myasthenia gravis, effect Tensilon on, 13
 extraocular muscles in, 13
 Lancaster red-green test in, 13
 Mycobacteria, corneal infection by, 130
 Myopia, high unilateral, fundus degeneration and, 756
 in retrolental fibroplasia, 134

N

- Navajo Indian, pterygium in, treatment of, 759
 Nerves, aberrant regeneration 3rd, eyelid sign in, 696
 Nevxanthothelioma, 973
 New England Ophthalmological Society, 270, 775
 New Zealand, Maoris of, eye diseases in, 358
 News Items, 169, 310, 448, 650, 813, 1021
 Night blindness, hereditary vitreoretinal degeneration and, 553
 Nystagmus, acquired idiopathic, oscillopsia and, 139

O

- OBITUARIES:
 Marc Amsler, 274

OBITUARIES (continued)

- William Lemuel Benedict, 602
 Frederick Hermann Verhoeff, 600
 Ocular tension, glaucoma and, in Jamaica, 93
 in Maoris of New Zealand, 358
 increased, after cataract extraction, 392
 outflow facility and, 451
 Ocular rigidity, in study of aqueous outflow, 451
 Ointment, for gonioscopy, 419
 Ophthalmic artery, brachial artery pressure ratio, 684
 pressure, carotid compression test and, 688
 ophthalmodynamometric and direct measurement of, 671
 Ophthalmic lectures, Gifford Memorial, 1
 Jackson Memorial, 451
 Ophthalmodynamometry, compression and suction, 388
 OAP/BAP pressure ratio by, 684
 ophthalmic artery pressure by, 671
 Ophthalmology, computers in, 596
 residents, in-training examination of, 70
 Ophthalmoplegia, in Parry-Romberg syndrome, 561
 Optic disc, aplasia of, 973
 in Cockayne syndrome, 762
 Optic nerve, cupping of, 971
 head, anomalies of, 821
 congenital pit of, serous detachment macula and, 821
 melanocytoma of, 79
 Optic pit, central serous retinopathy and, photocoagulation in, 519
 Optical aids, for partially sighted, 542
 Optics, cosmetic, artificial eye fitting and, 189
 ORBIT, fibrosarcoma of, 244
 medial wall of, radiographic diagnosis fracture of, 772
 surgery of, orbital venography in, 512
 tumors of, venography in suspected, 512
 Oscillopsia, nystagmus and, 139
 Oxygen, surveillance of, in children low birth weight, 134
- P
- Palpebral fissure, artificial eye fitting and, 189
 Parry-Romberg syndrome, ocular manifestations of, 561
 Pemphigus, chronic cicatricial conjunctivitis and, 526
 Perimetry, pupillomotor, 972
 Phaco-emulsification, aspiration and, 464
 Photocoagulation, in central serous retinopathy, 519
 in disciform macular degeneration, 920
 in serous detachment macula, 821
 Photography, cinematography, of microsurgical procedures, 218
 fluorescein, of microhemangiomas, 846
 to study retinal vascular malformations, 501
 Phospholine Iodide: See Echothiophate iodide
 Photophobia, in Cockayne syndrome, 762
 Phycocytosis, lethal orbito-cerebral in children, 698
 Pigment, dispersion of, in postcongestive glaucoma, 540
 epithelium, effect argon laser on, 671
 placoid lesion of, angiography in, 653
 Pilocarpine, pressure-cup tonography during, 713
 Polyethylene sulfonic acid, in experimental retinal detachment, 571
 Proptosis, Factor XIII deficiency and, 346
 Prostheses, epikeratoprosthesis, 38
 fitting of, Iowa implant and, 171
 in bilateral anophthalmos, 580
 measuring diameter anterior segment for, 769
 Pseudomonas aeruginosa keratitis, 257
 Pterygium, in Maoris of New Zealand, 358
 in Navajo Indian, treatment of, 759
 Puncta, position of in fitting artificial eye, 189
 Pupil, microhemangiomas at border of, 846
 size, optical properties corneal grafts and, 724
 suppression, 972

R

- Radiation, fundus lesions due to, 972
 laser: See Laser
 Radioactive isotopes, to study iris uptake catecholamines, 705
 phosphorus (P^{32}), to study melanocytoma, 79

- Radiochromatography, to study iris uptake catecholamines, 705
 Radiography, to diagnose fracture medial orbital wall, 772
 Refraction, errors of, in children low birth weight, 134
 in Maoris of New Zealand, 358
 in low-vision aids, 542
 Renal disease, reversible bullous retinal detachment in, 249
 Renal transplantation, retinal detachment regression after, 249
 Residents, in-training examination of ophthalmology, 70
 RETINA, changes due to chloroquine, 399
 detachment, bullous reversible in renal disease, 249
 experimental, electron microscopy of, 117
 polyethylene sulfonic acid in, 571
 secondary to laser radiation, 100
 effect argon laser on, 671
 findings, in cryptococcosis, 745
 hemangioblastoma of, 501
 in diabetes mellitus, 21
 in Hallermann-Streiff syndrome, 151
 laser coagulation of, 666
 microangiopathy of, in diabetes mellitus, 21
 ophthalmoscopic monitoring of, in children low birth weight, 134
 photoreceptor outer segment degeneration, 117
 reattachment, in experimental detachment, 117
 surface, contraction internal, 418
 tears, without detachment, 971
 vascular malformations of, 501
 venous pulsations, CSF pressure and, 954
 Retinitis, cryptococcal, 745
 pigmentosa, choroidal circulation in, 653
 Retinoblastoma, DNA and RNA metabolism in, 737
 Retinopathy, central serous with optic pit, 519
 photocoagulation in, 519
 ischemic, amniotic fluid embolization and, 351
 Retrolental fibroplasia, 134
 Rickettsia infections, Rocky Mountain spotted fever, 263
 RNA metabolism, in retinoblastoma, 737
 Rocky Mountain spotted fever, fundus changes in, 263
- S**
- Saudi Arabia, trachoma in, influence environment on, 235
 Scars, keratoplasty in vascular, 46
 Schiötz tables, applanation tonometry compared with, 869
 Sclera, lacerations of, repair, 854
 Scotoma, four-diopter prism test in suppression, 935
 Sinus, mucocele of frontal, 591
 Sjögren-Larsson syndrome, 972
 Skin, after blast injuries, 64
 Skin-test reactivity, in uveitis, 732
 Spectacles, artificial eye fitting and, 189
 stereopsis with, in monocular aphakia, 547
 Spirochetes, in human eye, 335
 Stains, for treponemes, 335
 Staphyloma, intercalary in Marfan syndrome, 329
 Stereopsis with spectacles, in monocular aphakia, 547
 Stevens-Johnson disease, epikeratoprosthesis in, 38
 STRABISMUS, 775, 76
 A-exotropia, 377
 alternate-day, 565
 in Maoris of New Zealand, 358
 surgery, Malbran's "en vis", 380
 Suppression, in amblyopia, 1
 Supraorbital fold, artificial eye fitting and, 189
 Surgery, intraocular, eyelid sutures in, 594
 microsurgery of glaucoma, 857
 microsurgical procedures, cinematography of, 218
 of pterygium, in Navajo Indians, 759
 Sursumduction, alternating, 377
 Sutures, 8-0 white virgin-silk, to repair scleral lacerations, 854
 eyelid, in intraocular surgery, 594
 monofilament nylon, in cataract surgery, 950
 Sympathetic ophthalmia, methotrexate in, 383
 SYNDROMES, Cockayne, ocular manifestations of, 762
 Hallermann-Streiff, 151
 Hörner, iris uptake catecholamines in experimental, 705
- SYNDROMES (*continued*)
 Marfan, intercalary staphyloma in, 329
 Melkersson-Rosenthal, 971
 Parry-Romberg, 561
 Sjögren-Larsson, 972
 superior-oblique tendon-sheath, 960
 Syphilis, Krajan-Dieterle silver stain in diagnosis congenital, 335
 nasopharyngeal, 972
 Syphiloderm, 973
- T**
- Tearing, diagnosis causes of, 751
 Tears, film of, surface phenomena of, 56
 viscosity of, 56
 Television, microsurgical procedures and, 218
 Tensilon, in myasthenia gravis, 13
 Tests, carotid compression, ophthalmic artery pressure and, 688
 four-diopter prism, atypical responses to, 935
 Lancaster red-green, in myasthenia gravis, 13
 microbiologic, under office conditions, 728
 Schirmer, 751
 skin, in uveitis, 732
 Thelaziasis, 773
 Thio-tepa, in pterygium, 759
 Thyroid disease, upper eyelid retraction in, bethanidine in, 764
 Tonography, pressure-cup, in chronic simple glaucoma, 713
 to study aqueous outflow, 451
 Tonometry, applanation, Schiötz tables compared to, 869
 to study aqueous outflow, 451
 Torulosis, retinitis, 745
 Trachoma, in Maoris of New England, 358
 in Saudi Arabia, influence environment on, 235
 Trephination, sclerocorneal, in Africans, 395
 Tumors, of eyelid, 413
 of optic nerve, 79
 of orbit, 244
 Wilms', sporadic aniridia and, 558
- U**
- Ulcers, dendritic, herpes infections and, 313
 of cornea, fornix-based conjunctival flap in, 754
 Ultrasonography, in melanocytoma, 79
 Ultrasound, to measure axial length eye, 864
 to measure lens thickness, 87
 UVEITIS, delayed skin-test reactivity in, 732
 experimental, antilymphocyte serum in, 952
 herpes simplex, 313
 lens-induced, lens capsule rupture and, 144
 methotrexate in, 383
 University of British Columbia, new facilities, 775
- V**
- Venography, orbital, in surgery of orbit, 512
 to study retinal vascular malformations, 501
 Virus, characteristics of herpes, 313
 Visual acuity, decreased, in nystagmus with oscillopsia, 139
 Visual aids, low-vision, 542
 Vitreoretinal degeneration, night blindness and hereditary, 533
 VITREOUS, alterations, after polyethylene sulfonic acid, 571
 coagulation, laser radiation causing, 100
 effect argon laser on, 671
 loss, during cataract surgery, 971
- W-X-Z**
- Water, movement of through corneal epithelium, 110
 Wilms' tumor, sporadic aniridia and, 558
 Wounds, corneoscleral after blast injuries, 64
 healing, in keratoplasty for interstitial keratitis, 907
 Xenograft reaction, effect corticosteroids on, 896
 X-ray examination, tomographic, in medial orbital wall fractures, 772
 X-ray therapy, in fibrosarcoma of orbit, 244
 Zonulysis, enzymatic in cataract extraction, 230

ABSTRACT INDEX

A

- A and V syndrome, 287
 - in early childhood, 797
- Abscess, subconjunctival parasitic, 997
- Accidents, ocular in motor industry, 1019
- Accommodation, disturbances of in heterophoria, 996
 - refractive elements eye and, 985
- Acetazolamide, influence on ocular tension, 1007
- Acetylcysteine, in keratoconjunctivitis sicca, 444
- Achromatopsia, 434
- Acidosis, intraocular hypotony and, 631
- Acids, amino, in tears, 442
 - of corneal collagens, 613
 - of lens, during aging, 635
- ascorbic, influence on ocular tension, 1004
- of aqueous, ocular tension and, 1001
- Acrocephalosyndactyly, 436, 788
- Actinomycin-D, effect on developing eye cells, 163
- Adenocarcinoma, of meibomian gland, 645
- Adenoma, of pituitary, 639
- Adhesives, fibrinous, in conjunctival wounds, 795
- Adrenaline, in glaucoma, 632
- Adrenergic agents, in eyelid retraction, 986
 - uveal blood flow and, 985
- Africa, keratopathy in tropical, 293
- After-images, color sequences in, 789
 - to treat amblyopia, 620
- Age, trabecular changes due to, 1006
- Aging, lens amino acids during, 635
 - visual impairment and, 811
- Air, injection into eye, 795
- Albino, keratoconus in, corneal hydrops and, 288
- Alcohol, acute poisoning from methyl, 446
- Alcoholism, genetics of, 433
- Allergy, auto-, uveitis and, 443
 - retinal thrombosis due to somatotrophic hormone in, 637
- Allopurinol, macular lesions and, 444
- Alloxan, corneal vascularization induced by, 291
- Alport syndrome, optic disc in, 787
- Amaurosis, congenital, 437
 - transient, local anesthesia and, 987
- AMBLYOPIA, after-images to treat, 620
 - barbiturates to treat, 992
 - contact lens occlusion in, 443
 - dark adaptation in, 619
 - eccentric fixation and, 992
 - in Belgium, 649
 - results of therapy in, 622
 - reversing phenomenon in, 287
 - sensorial characteristics of, 622
 - strabismus and, cured, 996
 - older children with, 995
 - test for binocular relationship in, 620
 - treatment of, results, 995
 - unilateral, optokinetic ocular dominance and, 993
- Amblyoscope, to measure strabismus deviation, 622
- Amino-aciduria, congenital cataract and, 434
- Amphotericin B, in mycotic infections, 792, 984
- Amyloid, in corneal dystrophy, 292
- Amyloidosis, of conjunctiva, 1099
 - vitreous opacities in, 297
- Anemia, megaloblastic, vision and, 307
- sickle-cell, retinal detachment in, 802
- ANESTHESIA, fluothane, 444
 - general, 619
 - in children, 989
 - in infants, ocular tension and, 628
 - in keratoplasty, 624
 - influence on eye deviations, 287
 - local, transient amaurosis due to, 987
 - procaine in corneal, 986
 - surface, mepivacaine in, 615
- Aneurysm, carotid-sinus cavernous, 1015
 - intracranial, 302
 - intraorbital, of ophthalmic artery, 806
 - microaneurysms, of retina in leukemia, 638
 - of carotid sinus, 806
- ANGIOGRAPHY, fluorescein, 988
 - in choroidal sclerosis, 299
 - of iris, in diabetics, 294
 - of optic disc, 300
 - of retina, in rhesus monkey, 432
 - of retinal circulation, 637
- Angioid streaks, elastorrhexis and, 647
- Angiosarcoma, orbitopalpebral, 808
- Animals, retinal photography in, 285
- Aniridia, glaucoma and, 799
- Ankyloblepharon filiform adnatum, 807
- Anophthalmos, prostheses in congenital, 433
- ANTERIOR CHAMBER, angle, histochemical studies of, 1001
 - complications, in keratoplasty, 997
 - depth, in open-angle glaucoma, 629
 - hemorrhage into, laser in, 617
 - irrigating needle, 447
 - of Latimeria chalumnae, 785
 - pH in, change after cauterization, 1020
 - restoration of, delay in, 296
- Anterior segment, 445
 - changes in, after retinal detachment surgery, 636
 - photocoagulation in diseases of, 988
- Anthocyanosides, in quinine intoxication, 283
- Antibiotics, effect on growth trachoma agent, 792
 - in intraocular infections, 792
- Anticoagulants, in retinal vein occlusion, 638
 - retinal hemorrhage during, 638
- Antigenic relationships, among species, 785
- Antilymphocyte serum, to suppress graft reaction, 623
- Apert syndrome, 788
- APHAKIA, contact lens in, 793
 - in traumatic, 443
 - dark adaptation in, 439
 - glaucoma and, 1005
 - in children, 443
 - retinal detachment in, 639
- AQUEOUS, ascorbic acid of, ocular tension and, 1001
 - drainage, posterior routes, 627
 - dynamics, pH, pilocarpine and, 1002
 - flow, pupillary, 629
 - measurement of, 295
 - glucose and glycoprotein of, 791
 - Na⁺ and K⁺ in, after cortisone, 729
 - outflow, after ocular contusion, 1001
 - channels, related blood vessels and, 786
 - mydriasis and, 296
 - trabecular drainage and, 1003
 - oxygen pressure in, 439
 - suction, blocking in glaucoma operations, 629
 - vitreous differential pressure and, 631
- Arachnoiditis, 302
- Arteritis, temporal, 648
- Artery, ophthalmic, meningeal branches of, 164
- Astigmatism, causes of, 985
 - oblique, cyclophoria and, 786
 - refraction and, 614
- ATPase, in human retina, 791
- Azathioprine, in Sjögren syndrome, 998

B

- Barbiturates, in amblyopia, 992
- Basedow disease, diplopia in, 809
- Behçet disease, 308
- Behr disease, 436
- Belgium, amblyopia in, 649
- Blepharitis, penotrane in, 615
- Blepharoptosis, congenital, 644
 - due to drugs, 284
- EMG in, 795
- fascia lata grafting in, 644
- hereditary, in adult life, 807
- Blind, children, education of, 1020
 - counseling of, 1020
 - intellectually handicapped, 1020
 - rehabilitation of, 1020
 - treatment and education of, 1020

BLINDNESS, caloric tests in, 805
 due to quinine, stellate ganglion block in, 794
 glaucoma causing, 1000
 in children, after meningitis, 642
 in Horton disease, 648
 in Switzerland, causes of, 1020
 recurrent monocular, redundant carotid artery and, 1016
 statistical study of, 309
 transient, after head injury, 1014
Blindspot, scotoma, perception of, 447
BLOOD, circulation of, diseases of, 306
 factors, keratoplasty and, 798
 flow, in conjunctiva, 307
 in uvea, 985
 supply, disturbances ocular, 1012
 vessels, aqueous outflow channels and related, 786
 chorio-optical veins, 803
 limbal capillaries, corneal subhydration and, 292
 meningeal artery, ophthalmic origin of, 640
 of choroid, ocular pressure pulse and, 167
 ophthalmic artery, meningeal branches of, 164
 pressure, ischemia and, 301
Blood-aqueous barrier, compression eye and, 1006
 instrument to study, 987
Bone, malar, fractures of, 806
 and orbital floor, 1017
 marrow, in children with retinoblastoma, 646
Bonnet, Dechaume, Blanc syndrome, 436
BRAIN, bisection of, effects on eye-hand coordination, 613
 contusion, visual disturbances after, 648
 degeneration of, optic nerve in, 299
 diseases of, ocular signs in, 1016
 stem, lesions of, visual illusions and, 804
 tumor, corneal reflex in diagnosis of, 1016
Brazil, visual field standards in, 990
Buphthalmia; See **Glaucoma**, congenital

C

Calliphor erythrocephala, directional sensitivity in, 164
Carbachol, in cataract surgery, 793
Carcinoma, bronchogenic, retinal detachment and, 645
 of choroid, 645
 of lacrimal gland, 645
 of sphenoid sinus, 6th nerve palsy in, 641
 sebaceous, 645
Cardium edule (cockle) eye of, 785
CAROTID, artery, redundant, blindness due to, 1016
 compression, tonography in, 632
 occlusion, corneal pulse in, 641
 oculosphygmography in, 641
 sinus, aneurysm of, 806
 thrombosis, pulseless disease and, 810
Carp, color sensitivity of, 611
 retina of, S-potentials in, 166
 retinal response to electric stimulation, 611
Caruncle, sebaceous carcinoma of, 645
CATARACT, congenital, amino-aciduria and, 434
 diabetes and, 297
 electric, high-voltage injuries and, 800
EXTRACTION, after oculopression, 801
 carbachol in, 793
 cryosurgical, 633, 634, 802, 1008
 complications of, 1009
 expulsive hemorrhage in, 634
 hypotonia in, 801
 in Fuchs heterochromia, 634
 in glaucoma, 1005
 in hemophilia, 296
 in iris coloboma, 1008
 inflammatory response of, 986
 iridostasis in, 628
 optic nerve edema after, 1009
 retinal pigmentary degeneration and, 1009
 sutures in, 800
 safety, 635
 techniques of, 802
 3,000, complications and results, 801
 floriform, 635
 juvenile, galactokinase deficiency and, 165
 lens, pentose-phosphate cycle in, 439
 miotics and, 629, 632

CATARACT (continued)

piperazine derivatives and, 283
 posterior subcapsular, corticosteroids and, 1008
 rubella syndrome and, 804, 1008
 senile, effect blood patients on dehydrogenases, 167
 etiology of, 1008
 inositol in lens in, 633
 S-S/SH ratio in, 281
 streptozotocine-induced, 634
 surgery, 296
 cyclonamine in, 615
 diamond knife in, 286
 double-arm sutures in, 633
 new position in, 296
 transient, in premature infants, 633
Catecholamine, effect on iris, 986
Caulolatilus princeps, lens nucleus proteins in, 432
Cerebral cortex, visual areas of, 302
Cerebral disease, ocular signs in, 1017
Cerebral ischemia, 1016
Cerebrovascular insufficiency, 302, 640, 1015
Charcoal, as therapeutic agent, 986
Cheek, hemangioma of, 1017
Chiasmal syndrome, 641, 1015
CHILDREN, American Indian, trachoma in, 282
 A and V syndrome in young, 797
 aphakia in, 443
 blind, 309
 education of, 1020
 blindness in, after meningitis, recovery, 642
 brain-injured, touch to vision in, 806
 congenital anomalies in, 434
 emotionally disturbed, 806
 esotropia in young, 991
 general anesthesia in, 989
 infants, ocular tension in, under anesthesia, 628
 premature, oxygen problems in, 433
 transient cataract in, 633
 injuries in, transient blindness after head, 1014
 kindergarten, vision testing device for, 615
 lens injuries in, pseudophakia after, 1007
 newborn, eye damage from silver nitrate, 810
 eye movements in sleeping, 302
 keratomalacia in, 209
 ocular tension in, under five, 1007
 ophthalmic consultation of rural Iowa, 309
 optic atrophy in, hereditary, 436
 partially sighted, optical aids for, 614
 retinal detachment in, 299
 saccadic eye movements in, 281
 school, visuomotor disability in, 309
 under two, strabismus treatment in, 992
 visually handicapped, in S. Australia, 309
 with retinoblastoma, bone marrow in, 646
Chlorophenoxybutyrate, in retinopathies, 283
Chloroquine, effect on ERG, 616
 ocular damage due to, 282, 283
 ocular effects of, 283
 pigmentation due to, 284
 retinopathy, 284, 794
Cholesterol levels, in lens, 1008
Chorea, rapid eye movements in, 640
Chorioretinopathy, arteriosclerotic, 284
 exudative, fluorescein studies in, 298
 hemorrhagic exudative, 638
Choristoma, osseous of episclera, 306
CHOROID, blood vessels of, fluorescein appearance time in, 989
 ocular pressure pulse and, 167
 carcinoma of, 645
 changes, in Raeder syndrome, 642
 detachment, after iridencleisis, 294
 diseases of, EOG in, 989
 osteogenic sarcoma metastatic to, 808
 sclerosis, angiography in, 299
Chromosomes, aberration, in retinoblastoma, 808
 malformations and, 434
 anomalies of, in Goldenhar syndrome, 165
Ciliary body, cysts of, retinoschisis and, 803
 morphogenesis of rat, 437
 tumors of, 626
 excision of, 293

- Ciliary ganglion, adrenergic nerves in, 786
 Colitis, ocular complications of ulcerative, 308
 Colliculus, innervation anterior in rat, 785
 Colobomas, congenital, vitamin-A deficiency and, 436
 of iris, cataract extraction in, 1008
 retinal detachment surgery and, 638
 Color blindness, genetics of, 433
 in Finland, 435
 luminance additivity and, 789
 Color defects, in motor drivers, 648
 Color recognition, visually evoked occipitogram and, 279
 Color sensitivity, in carp, 611
 COLOR VISION, defective in artists, 309
 in macular disease, 796
 in optic nerve disease, 796
 in tropical eye-fly, 432
 inherited defects in, 787
 sensitivity curves in, 788
 CONGENITAL ANOMALIES, chromosome aberration and, 434
 corneal staphyloma, 290
 due to toxic influences, 435
 environmental factors and, 434
 fibrosis extraocular muscles, 287
 in chick embryos, 435
 in neurosurgical patients, 434
 in three siblings, 434
 of eye, 434
 toxoplasmosis and, 791
 X-radiation of women and, 433
 Congenital rubella syndrome, 438
 CONJUNCTIVA, amyloidosis of, 1019
 cells of, 798
 cysticercosis of, 997
 epithelium, adaptation of, 798
 exfoliative cytology of, in diagnosis, 285
 flaps of, in corneal injuries, 308
 incision, for scleral implants, 639
 lichen planus of, 998
 malignant tumor of, 305
 microcirculation of, blood flow in, 307
 in cardiorespiratory insufficiency, 307
 mycoplasma on, 613
 photocoagulation diseases of, 988
 reticular fibers of, 624
 sac, bacterial flora sheep, 984
 scarring, diplopia after, 649
 verrucae on, 807
 wounds, fibrin closure of, 791, 795
 Conjunctivitis, bacteriologic examination in, 798
 cytologic examination in, 798
 gentamycin in, 987
 herpes simplex, 623
 sicca, 290
 vernal, fever therapy in, 290
 CONTACT LENSES, adhesives to apply, 793
 contaminated, 289
 corneal, effect on myopia, 985
 flush-fitting, 793
 in aphakia, 793
 traumatic unilateral, 443
 occlusion with high plus, 443
 prescription of, 793
 refitting of, 443
 users, protection of, 282
 Contraceptives, neuro-ophthalmic sequelae of oral, 794
 Contusion, retinal detachment after, 308
 Convergence, accommodation and, 994
 CORNEA, 292
 abrasions of, refractive changes after, 998
 anesthesia, congenital bilateral, 998
 applanation of, 1006
 black, due to epinephrine, 986
 calcification of, 798
 central area normal, electron microscopy of, 433
 chemical composition of, 431
 degenerations of, secondary lipid, 288
 dellen, 624
 dysgenesis, mesodermal, 997
 dystrophies, amyloid in, 292
 edematous, 623
 endothelial vesicular, 288
 CORNEA (continued)
 dystrophies, continued
 Haab-Dimmer, 999
 of Schlichting, 798
 parenchymatous, 996
 posterior polymorphous, 288
 Reis-Bückler, 998
 edema, intermittent, 624
 surgery of, 291
 endothelium, in herpes simplex keratitis, 623
 epithelium, cultivation cells of, 612
 exfoliative cytology of, in diagnosis, 285
 fistulas of, keratoplasty in, 289
 fluorescein patterns on, 625
 herpes simplex of, 614
 histology of, 286
 hydration, fluid transport and, 997
 hydrops of, in keratoconus, 288
 immunologic reaction in, 293
 implants into, 289
 in astigmatism, 985
 in evolution keratoconus, 625
 indentation of, ocular tension and, 1001
 injuries to, conjunctival flaps in, 308
 involvement, in leishmaniasis, 623
 marginal furrows in, rheumatic arthritis and, 623
 megalocornea: See Megalocornea
 opacities of, congenital, 998
 surgery of, 291
 perforations, surgery of, 289
 permeability of, to sodium, 999
 photocoagulation diseases of, 988
 polymeric collagens of, 613
 posterior, hyaline ridges on, 288
 potential difference in, 612
 pulse, in carotid occlusion, 641
 reflex, brain tumor diagnosis and, 1016
 respiratory enzymes of, 625
 staphyloma of, congenital, 290
 subhydration of, limbal capillaries and, 292
 surface, cloudiness of, postoperative linear, 997
 procaine interaction with, 986
 surgery of, refractive, 797
 temperature of, measuring, 290
 thickness, measurements of, 998
 transparency, after keratoplasty, 289
 transplantation: See Keratoplasty
 ulcers of, *B. proteus*, contact lens contamination and, 289
 surgery of, 289
 vascularization of, alloxan-induced, 291
 wounds, tensile strength of, 624
 xerosis of, operation for, 305
 Corneoscleral lacerations, 308
 Corpus callosum, lesions of, ocular symptoms, 805
 CORTICOSTEROIDS, acute glaucoma due to, 632
 alternate-day, 445
 in superficial punctate keratitis, 999
 in toxocara endophthalmitis, 282
 posterior subcapsular cataract and, 1008
 Cortisone, in optic neuritis, 283
 in uveitis, 282
 Na⁺/K⁺ in aqueous and vitreous after, 789
 Cortex, lesions of, visual behavior and, 805
 striate, vision after removal of, 303
 Cosaldon, in arteriosclerotic chorioretinopathy, 284
 Crab carcinus, reflex eye withdrawal in, 431
 Cranial dysplasia, oculo-auricular, 437
 Cranial nerve disease, 1017
 Craniofacial dysostosis, lens dislocation in, 437
 Crouzon disease and, 165

 ophthalmopathy, guanethidine in, 445
 Tissues, connective, degeneration of, vitreous changes
 in, 801
 I¹³¹ labeled sodium iodate penetration into, 444
 Tonography, applanation rheometry and, 1003
 in carotid compression, 632
 Q-quotient in glaucoma simplex, 1000
 römer for nomogram of, 617
 under mydriasis, 295
 TONOMETER, applanation, contamination prism of, 613
 for operating room, 446
 of Posner, 989
 pneumatic, 286
 for screening, 284
 hand-held, 990
 pneumatic, 990
 Schiotz, base curvature of, 991
 Tonair, 630
 TONOMETRY, during cardiopulmonary bypass, 648
 dynamic, 990
 Goldmann's vs Maklakov, 1006
 Maklakov, 799
 ocular tension and corneal indentation during, 1001
 Toxic epidermal necrolysis, 624
 Toxic substances, congenital anomalies due to, 435
 Toxoplasma, retinochoroiditis due to, 626
 TOXOPLASMOSIS, 282, 443, 613
 congenital, 984
 malformations due to, 791
 oculomotor paresis and, 1015
 Trabecula, aging changes in, 1006
 drainage, in rabbit, 1003
 meshwork endothelium, phagocytic activity of, 611
 structure of, 1006
 Trachoma, agent, effect antibiotics on, electron micro-
 scopy of, 792
 immunopathology of, 791
 in American Indian children, 282
 sulfonamide (ST-8006) in, 987
 Traffic, drugs, eye and, 811
 fitness of Varilux glasses in, 793
 Trauma: See Injuries
 Television, influence on ocular tension, 1006
 Trephination, Elliot's, iridencleisis or, 1004
 Treponemes, fluorescent antibody staining of, 625
 Tribolium castaneum, eye color genes in, 785
 TUMORS, intraocular changes and, 306
 intraocular, fluorescence to diagnose, 807
 neurofibromatosis: See Neurofibromatosis
 of brain, corneal reflex in diagnosis of, 1016
 of cheek, 1017
 of choroid, 645, 808
 of ciliary body, 293, 626
 of conjunctiva, 305
 of episclera, 306
 of eye, 646
 therapy of, 1018
 of eyelids, 305, 644, 807
 eyebrow, caruncle and orbit, 645
 of iris, 293, 626
 cysts and, 799
 lipomatous nevus and, 799
 of lacrimal gland, 305, 645

TUMORS (continued)

- of macula, 635
- of meibomian gland, 645
- of optic chiasm, 301
- of optic nerve, 301
- of orbit, 304, 645, 809, 1017, 1018
 - approach to, 1017
- of orbital bones, 807
- of pituitary, 639
 - eye signs in, 640
- glaucoma and, 295
- orbitopalpebral, 808
- of scrotum, exophthalmos and, 646
- of sphenoid sinus, 6th nerve palsy in, 641
- of uvea, 645
- Turtle, background light, temperature and visual noise in, 611
- visual centers of, optic nerve fibers to, 784

U

- ULCERS, hypopyon, 624
- Ultrasonography, linear A-scan, 990
- ULTRASOUND, diagnostic apparatus, 795
 - to measure axial diameter of lens, 618
 - to measure lens thickness, 618
 - to study retinal detachment, 637
 - to study vitreous, 801
- Uvea, blood flow of, 985
 - melanoma of, cellular resistance to, 645
 - malignant, 808
 - histogenesis of, 808
- UVEITIS, auto-allergic disease and, 443
 - chronic, ocular hypertension in, 631
 - cortisone in, 283
 - experimental, ERG in, 999
 - Indomethacin in, 445
 - mycotic, treatment of, 984
 - patterns in, 626
 - peripheral, therapy of, 625
 - treponeme staining in, 625

V

- Vaccinia, accidental ophthalmic, 442
- Vasodilators, effect on retinal arterioles, 297
- Vehicle drivers, eye disease and, 308
 - ophthalmic norms for, 309
- Vernier acuity, measurement of, 982
- Verrucae, multiple ophthalmic, 807
- Virus diseases, Hoyt-Morrison test in, 613
- VISION, after removal striate cortex, 303
 - binocular, 282
 - anomalous retinal correspondence and, 797
 - time-resolving power in, 279
 - color: See Color vision
 - effect humming on, 442
 - megaloblastic anemia and, 307
 - night, hypoxia and, 439
 - parafoveal, 788
 - pattern, optic tract lesions destroying, 303
 - optic tract lesions sparing, 303
 - prognosis for, in diabetic retinopathy, 1009
 - psychophysical function in brightness, 280
 - threshold values of brightness, 280
 - touch to, in children, 806
 - underwater, of sea otter, 432
- VISUAL ACUITY, arabic test types and, 443
 - binocular, of pigeon, 982
 - central and peripheral, 282
 - chromatic aberration of, 614
 - target area on, 439
 - in diurnal and nocturnal primates, 983
 - in horizontal tracking movements, 282
 - objective determination of, 615
- Visual apparatus, effects Ethambutol on, 616
- Visual areas, of cerebral cortex, 302
- Visual behavior, cortex lesions and, 805
- Visual capacity, projection system to determine, 795
- Visual centers, optic nerve fibers to, in turtle, 784
- Visual changes, drugs causing, 794
- Visual cortex, areas of mouse, 784
- Visual deprivation, retinal changes and, 279
- Visual discrimination, in pigeons, 985
- Visual disturbances, after brain contusion, 648
- Visual-evoked potentials, after removal occipital lobe, 280
 - cortical, 440
 - intensity and, 442
 - retinal stimulation and, 280
- Visual-evoked response, cortical location and, 439
- Visual fields, defects in, perimetric study of, 805
 - deficiencies, noise causing, 811
 - examination, of central, 618
 - normal, Brazilian standards of, 990
- Visual function, in papilledema, 303
- Visual illusions, brainstem lesions and, 804
- Visual impairment, characteristics persons with, 811
 - in older patients, 811
- Visual masking, metacontrast and, 610
- Visual memory, defects in, 806
- Visual pathways, lesions in, 1015
 - pineal gland and, 786
- Visual patterns, ability Limulus to see, 163
- Visual perception, xerography and, 441
- Visual performance, eosinopenia response and, 308
- Visual pigments, in *Etropus maculatus*, 164
 - of frog and tadpole, 612
 - photosensitivities of, 168
 - thermal decomposition of, 168
- Visual prognosis, in renal failure, 647
- Visual recovery, after regeneration optic nerve, 432
- Visual scanning, pattern recognition and, 166
- Visual sensitivity, 168
- Visual space, saccadic eye movements in, 640
- Visual system, components of, 281
 - spatial interactions of, 983
- Visual testing, screener for, 285
- Visual thresholds, 440
- Visually handicapped, children in S. Australia, 309
 - optical aids for, 282
- Visuomotor disability, in school children, 309
- Visuscopy, in amblyopia, 620
- Vitamins, A deficiency, congenital colobomas and, 436
 - congenital microphthalmos and, 436
 - A₂, reproduction and vision in rat and, 166
 - B₁₂, neuropathy and, 1015
- Vitreopapillary drainage, electron microscopy of, 298
- VITREOUS, 800
 - antimicrobial properties monkey, 443
 - aqueous differential pressure and, 631
 - biomicroscopy of, 296
 - cavity, silicone into, in retinal detachment, 1012
 - changes in, in degeneration connective tissues, 801
 - cryosurgery of, 298
 - detachment of, acute posterior, 633
 - glycoproteins in, 635
 - hemorrhage, labeled-blood to study, 633
 - laser in, 617
 - treatment of, 634
 - implant, glyceryl methacrylate hydrogel as, 800
 - in eye disease, 633
 - intravenous metals in, behavior of, 634
 - Na⁺/K⁺ in, after cortisone, 789
 - opacities, in amyloidosis, 297
 - persistent hyperplastic primary, 296, 297, 1007
 - ultrasound to study, 801

W-X-Z

- Wardenburg syndrome, 788
- Waldenström's macroglobulinemia, 647, 809
- Whipple disease, 1019
- WOUNDS, of conjunctiva, fibrinous closure of, 791, 795
- Xerography, visual perception and, 441
- X-ray irradiation of women, eye anomalies and, 433
 - to treat eyelid tumors, measurement of, 446
- Zonulysis, mechanical, 296
